

# *Save the Date*

## ***“Preserving Your Family’s Treasures”***

**Sunday, August 14, 2016 from 2-4PM  
at Drake House Museum**

**Lecture and workshop by Debra Schiff, Archivist**

During the first hour of the 1.5 hour program, attendees learn the best ways to preserve their old photos, letters, scrapbooks, and other items typically found in boxes in the attic or basement. They also learn how and why to use archival quality materials. The last half hour of the program is dedicated to an interactive question and answer session during which attendees who bring in an item or two – a rare/old book, photo, letter, map, object – learn how best to keep their individual materials safe for future generations.
